

Compactly built and remarkably capable, the CBF500 is well-known and widely appreciated. At the heart of its naked styling lies its 499cm³ parallel-twin engine that never fails to impress with its blast of torque-filled acceleration. But there's more to this road bike than impressive engineering. The CBF500's sleek and stark lines make for an aggressive street-style look and head-turning design – so all the more reason to personalise your machine to just the way you want it from the range of Genuine Honda Accessories, all built according to the highest quality standards and designed specifically for your favourite model.
